

PlatformUptake.eu

Assessing the State of the Art and supporting an evidence-based Uptake and Evolution of Open Service Platforms in the Active and Healthy Ageing Domain

This project has received funding from the European Union's Horizon 2020 Research and Innovation Action under Grant Agreement No 875452.

Project Type: **Coordination and Support Action**

Project duration: **26 months (01/01/2020 – 28/02/2022)**

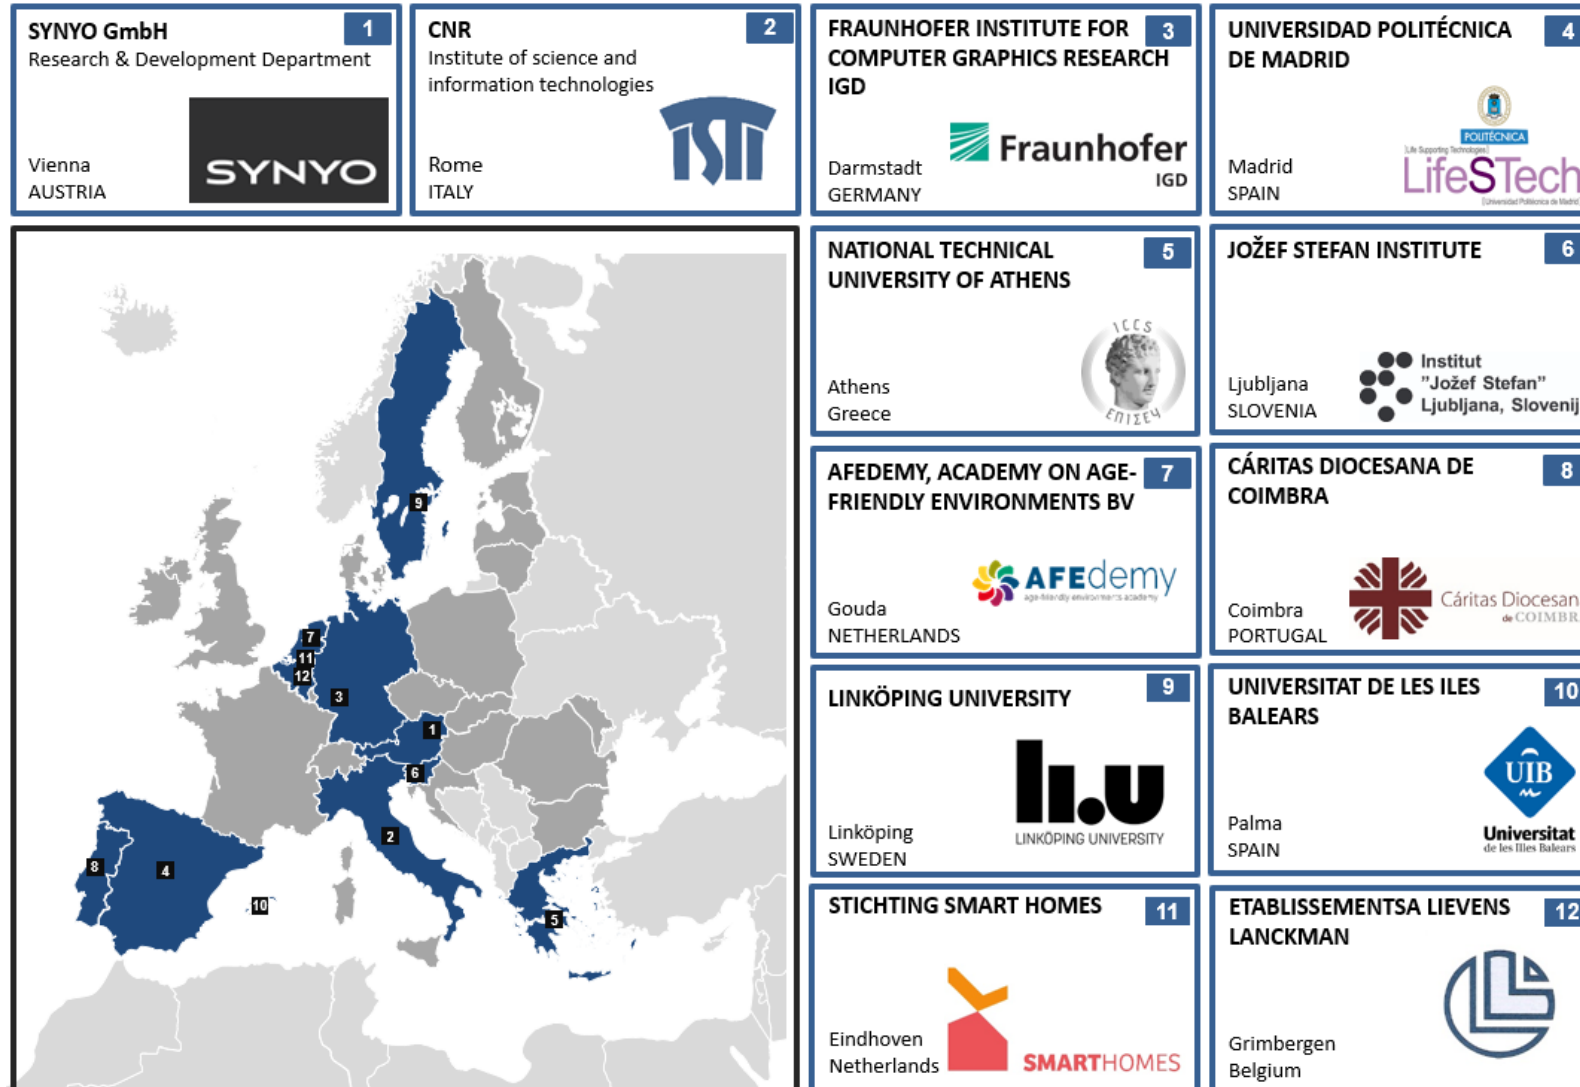

Person months: **172**

Partners: **12 from 10 countries**

Due to the persisting fragmentation of the active and healthy ageing market; and the lack of interoperability of the various solutions deployed or difficulties with the large scale uptake of the platforms by their targeted users, the aim of the PlatformUptake.eu project is to **observe, analyse and understand the whole ecosystem of open service platforms and their related networks**, and depict a picture describing the whole ecosystem with its **achievements and potentials**, targeting all user groups while also **generating synergies among platforms** and their **related projects** in the AHA and IoT domain.

Important

 **IDENTIFY** critical success factors of the development, deployment and spread of open platforms in the Active and Healthy Ageing Domain, through a sophisticated tailor-made monitoring methodology.

 **DEVELOP** monitoring and self-evaluation tools to support platform providers and users self-assess their success, uptake, capability gaps and evolution potentials through smart assessment and visualisation tools.

 **ANALYSE** existing platforms based on the created methodology, by assessing the projects and initiatives hosted by them, their further evolution, uptake, sustainability and socioeconomic benefits.

 **INVOLVE** end-user communities and related stakeholders to initiate a knowledge exchange cycle for collecting insights on best practices and challenges of platforms' uptake, evolution and costs etc.

 **LEVERAGE** the platform uptake by their user communities as well as their continuous improvement and expansion, by elaborating and showcasing best-practice models and evaluation guidelines.

 **DISSEMINATE** the acquired knowledge to end-users for increasing their uptake of existing platforms, and promote best practice models and identified benefits to foster future developments.

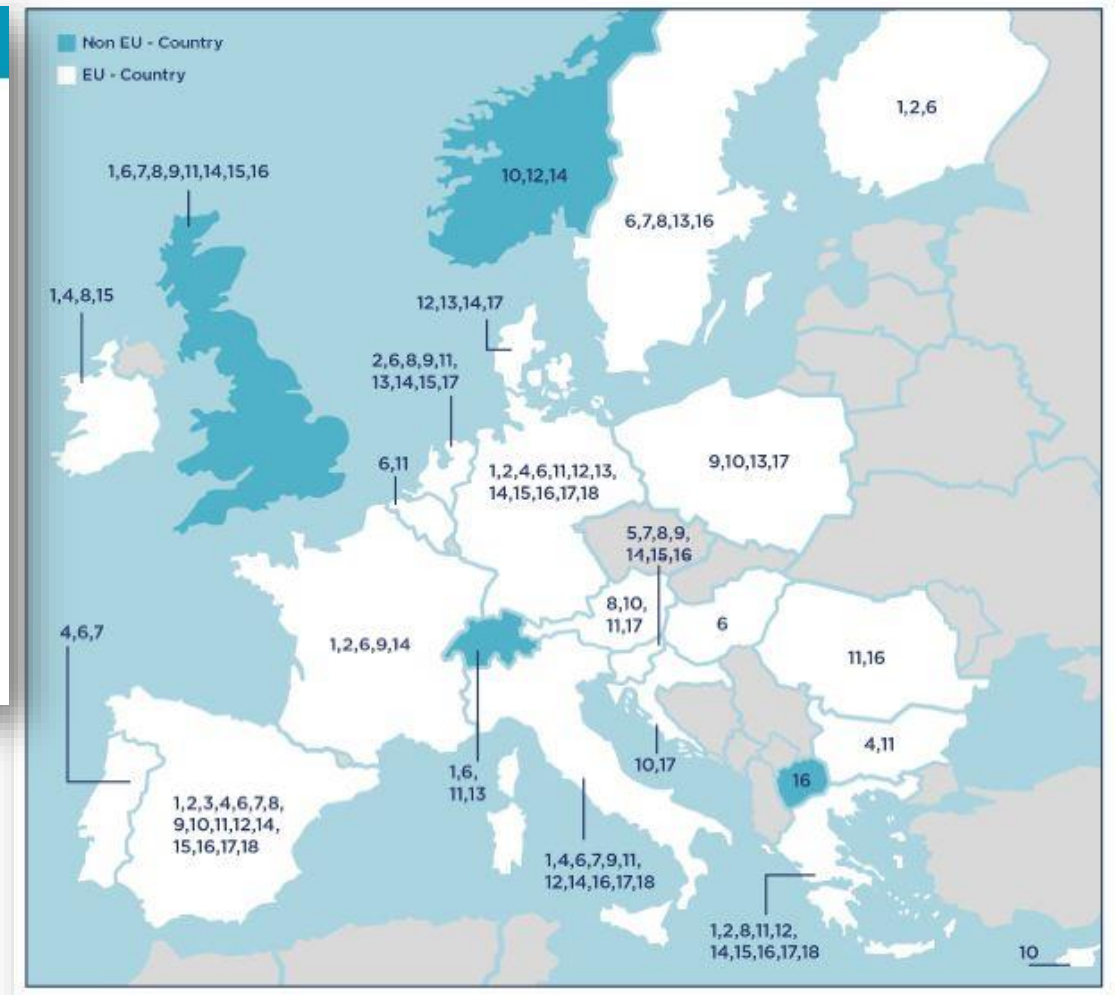

Collection of existing open source platforms in the Active and Healthy Ageing domain, their end-users and related stakeholders

Glossary definition to meet the need of introducing and describing unambiguously the terminology used

Identification of the most representative platforms in AAL/AHA domain, first group of 48 of the projects and selection of 18 platforms to be part of the ecosystem map

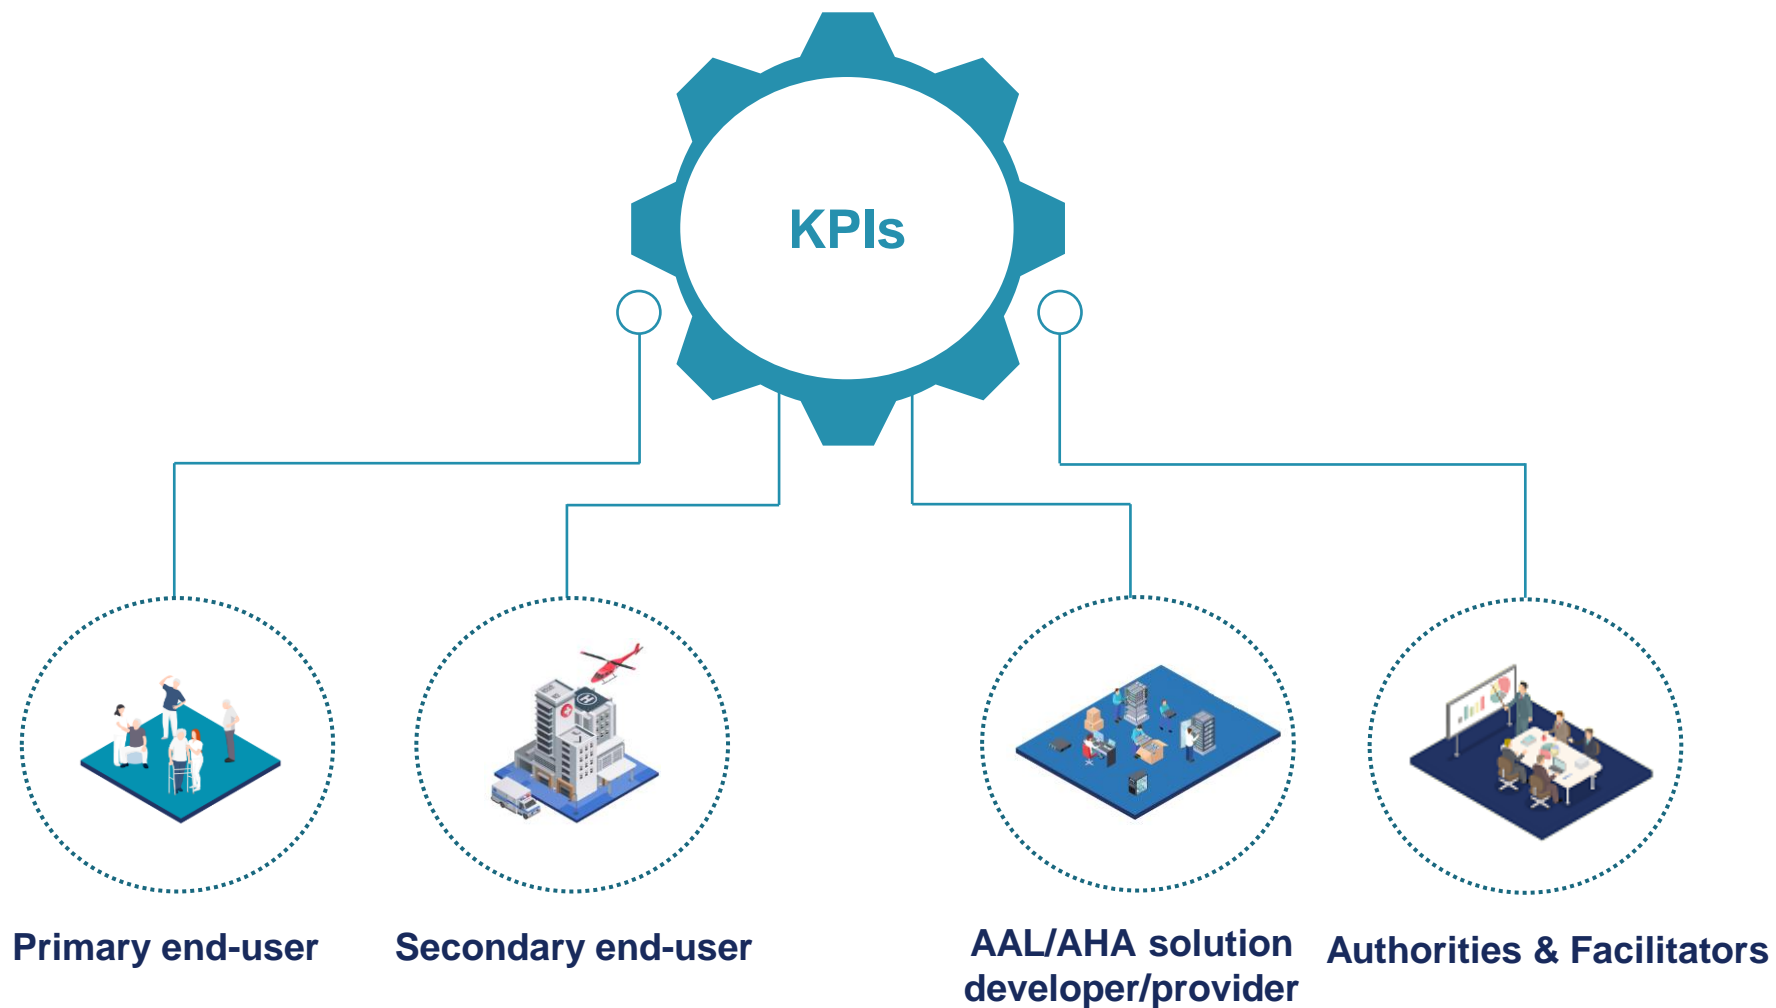

Projects in AHA and AAL Domains:			
1. ACTIVAGE		10. m-power	
2. Amigo		11. OASIS	
3. AmiVital		12. PERSONA	
4. BeyondSilos		13. REACH2020	
5. EKOSMART		14. ReAAL	
6. FIWARE		15. SOPRANO	
7. GIRAFFplus		16. UNCAP	
8. inLIFE		17. universAAL	
9. interiot		18. VAALID	

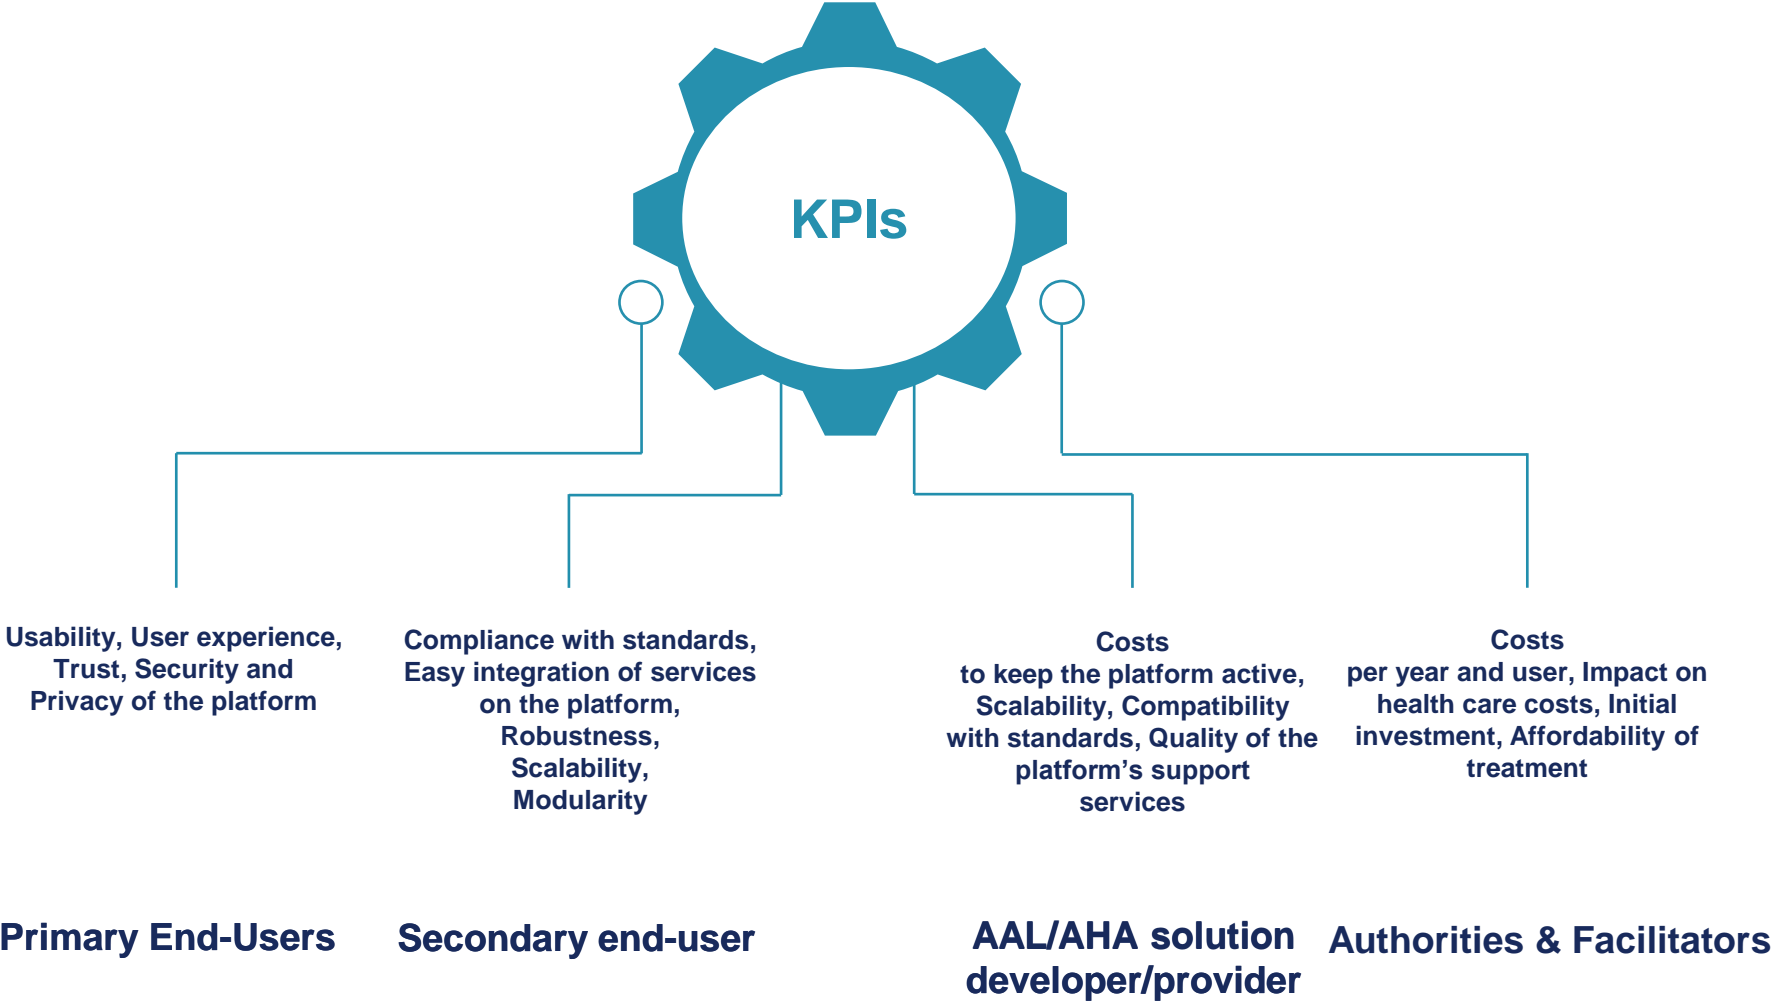

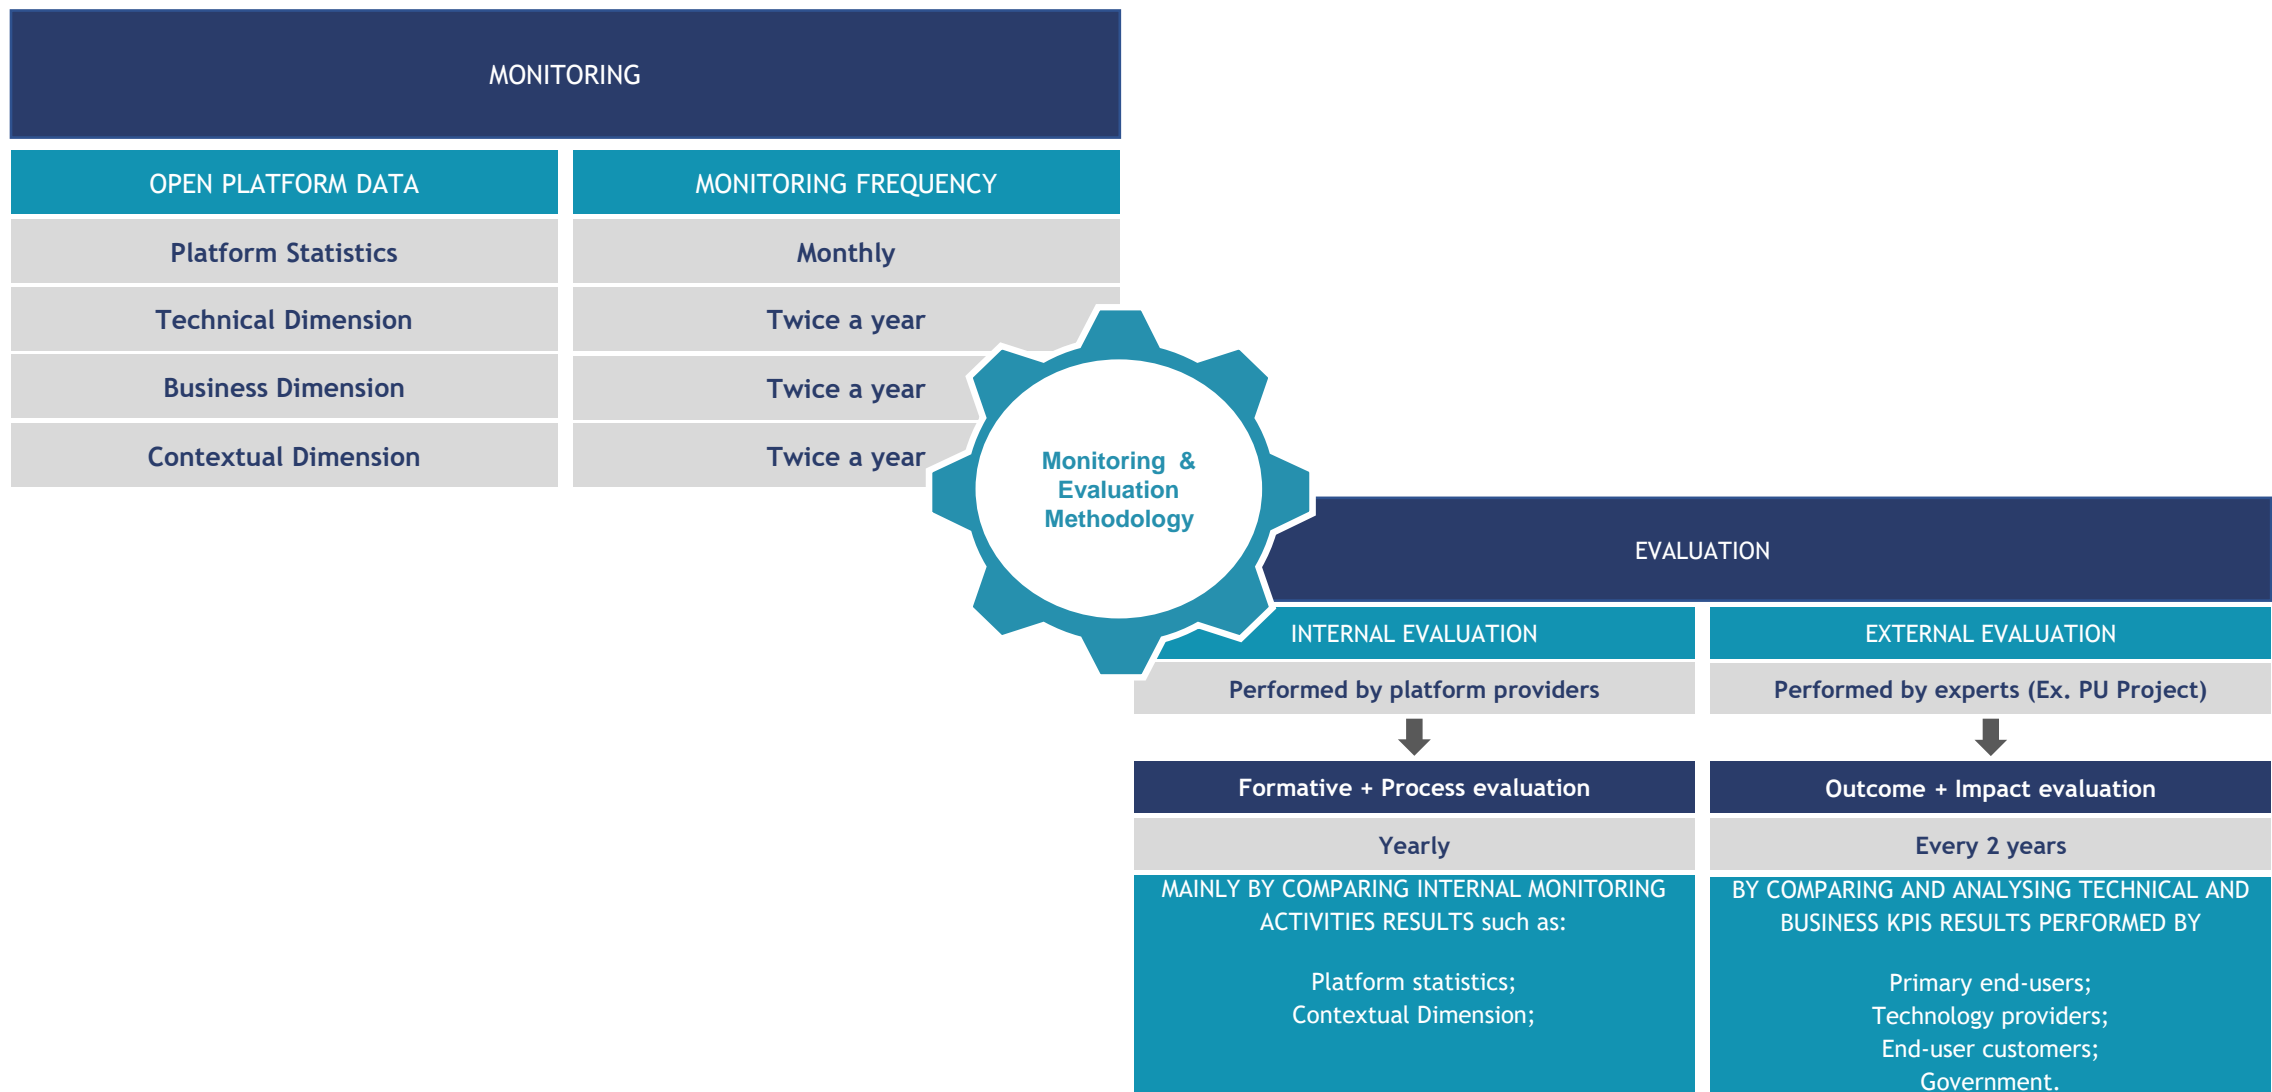

Main platforms under consideration and subject of analysis in PlatformUptake.eu

- AIOTES (ACTIVAGE)
- FiWare
- universAAL
- UNCAP
- onesait
- EkoSmart
- sensiNact
- Reach2020
